## Skills

- Python
- OpenCV
- Computer Vision
- C++
- TensorFlow

## Education

B.Sc. in Computer Engineering, VisionTech Univ. (2017-2021)

## Projects

- Object Detection: YOLOv5 implementation for real-time recognition.
- Face Landmarking: Dlib and OpenCV pipeline for 98% accuracy.

## Experience

- Computer Vision Engineer at VisionSmart (2021-Present):
  - Deployed models on edge devices for surveillance.
